SAVE THE DATE: VDS SHOWCASE

On April 11, VDS will be hosting our first ever showcase! Be sure to stop by Alumni Hall 201 from 6-8 pm for free food and to see what VDS project teams have accomplished this year and to learn what Data Science is all about. See the poster below for more details:

Vanderbilt Data Science Showcase

From sentiment analysis tools to shiny dashboards, come to see what our teams have been building and what Data Science is all about + FREE FOOD!

When: April 11th; 6 – 8 PM
Where: Alumni Hall 201

OTHER EVENTS:

Tuesday, April 4: VDS Full Club Meeting (4:30pm in FGH 132)
Be sure to stop by our next full club meeting **TOMORROW** to stay updated with everything VDS and hear from another project team on their progress!

vandydatascience@gmail.com

PROJECT HIGHLIGHT

At our latest club meeting, PM Kevin Chen and his team are working with the Land Trust of Tennessee to understand where lands are likely to convert from natural and cultivated to developed. This project aims to identify where to best aim conservation efforts. We can't wait to see all that this team accomplishes!

MEMBER SPOTLIGHT

It's time for our weekly member spotlight, and this week we are featuring **Isa Dominguez**, a freshman majoring in Computer Science and Cognitive Studies with minors in Data Science and Engineering Management. Isa is a part of the Centennial Park Team. Isa says that she likes "being able to partner with the Centennial Park Conservatory because you can really see the impact you make when working with a local organization." We are so grateful to have Isa on the VDS team!
